DURAVAL SINKS

The pinnacle of comfort, in line with modern taste

OUTSTANDING ADVANTAGES

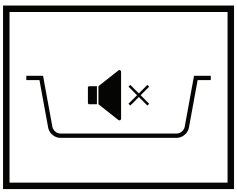

WATERPROOF

A special waterproof coating on the back of the sink helps limit standing water, and blocks moisture, mold and bacteria

SEAMLESS MOLDED CONSTRUCTION

Duraval sinks have a seamless, sturdy structure that increases durability and is easy to clean. Giving you peace of mind in use.

NOISE REDUCTION WHEN DRAINING

A rubber sound-dampening pad under the back of the sink reduces noise when washing dishes or when water runs hard

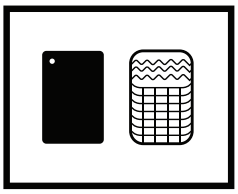

304 STAINLESS STEEL MATERIAL

Standard 304 stainless steel keeps the surface bright and shiny, color-fast and oxidation-resistant, safe for health

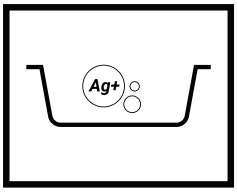

SCRATCH-RESISTANT

The sink surface uses micro-grain stamping technology, creating a refined finish with outstanding scratch and wear resistance

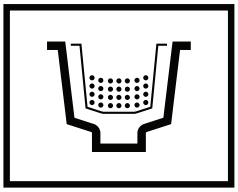

INTEGRATED ACCESSORIES

Some Duraval sink models come with integrated accessories, optimizing space and convenience in use

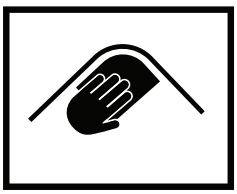

NANO AG+ COATING

The sink surface is coated with Nano Ag+ and antibacterial technology

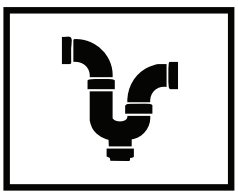

ANTIBACTERIAL STRAINER BASKET

The antibacterial strainer basket inhibits bacterial growth with a surface coated in Nano Ag+ and antibacterial technology

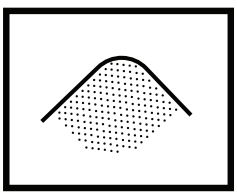

REFINED ROUNDED DESIGN

Soft rounded corners add beauty while preventing buildup of dirt and bacteria. One curve delivers a safe, easy-to-clean experience

IMPROVED SIPHON SYSTEM

The improved siphon (drain pipe) system drains water quickly, blocks odors effectively and saves space

LINEN TEXTURED SURFACE

Micro-grain stamping technology increases scratch resistance for the surface, resists wear and grease
